

If you got this pack delivered to you then there should be a cross craft included.

If it is a scratch art cross you could draw or say something. You will need something to scrape the black coating off with. We suggest using the end of a tea spoon.

Maybe you got a window cross to colour and then stick on a window.

Now is the time to take a while and make something special to you.

Maybe you have your own ideas of a craft you could do.

We would love to see your work, get your parent or carer to take a picture and send it to us.
